

# FLUTTER DEVELOPER

Are you a flutter fantastic and work within a sports and culture start-up on a lively product?  
Then we are looking for you!

## Introducing us

We are a start-up and a community platform for street athletes – also known as urban sports & culture – around the world. These urban sports and cultures, such as freerunning, are becoming increasingly popular, because skateboarding, breakdance, BMX, surfing and others have been added to the Olympics. In recent years, this has also awakened brands and (local) governments.

[CityLegends](#) aims to unite 150 million athletes and 1 billion fans across the world. Allowing athletes to explore the world with the best spots, events, and fellow athletes with whom they can compete to climb the ranks. Leaving a legacy in our world, whenever, with whomever and wherever they want. CityLegends is also more than 'just an app'. We offer brands and governments campaigns to connect their city or brand more strongly to our community. Together with our partners, we work towards our goal: to become the biggest community of all.

Working at CityLegends gives you the opportunity to greatly expand your network and work with international brands, governments and investors [LUMO Labs](#) (Start-up building programme) and [imec.istarts](#) (investor and international agency). You will be building the growth of CityLegends with a dedicated team, founders, and advisors. So, are you ready to conquer the world with us?

*'We're never done'*

## You are\*

You are able, and willing to design and develop new features independently. You have lots of experience in developing and releasing apps on the Appstore and PlayStore. You can work together with the back-end developers to create APIs that are required in the app. You don't take hierarchy too seriously and dare to speak your mind, a drive to continuously develop yourself and learn new languages/techniques. Above all, you can communicate well and are not averse to a party once a while! ;-)

*\*This vacancy has been written by a developer, not by a recruiter.*

## You have:

- A minimum of 3-years experience with Flutter;
- 5+ years of development experience, preferable with apps;
- Experience with our techstack (Flutter, Dart, GraphQL);
- Experience working in an Agile/Scrum environment;
- Experience with backend development is a plus;
- Experience with Google cloud is a plus;

## What do we offer?

We offer the chance to work in a dynamic environment with global potential. You will be part of a close-knit urban team with a strong drive to make an impact.

- Fulltime availability;
- Working on the most legendary target group, urban sports & culture;
- Great features and projects with known street athletes, international cities, multinational brands and techniques such as Augmented Reality, video, and avatars;
- Great growth opportunities - sky is the limit;
- Market conform rate;
- Optional: We meet 2 days at the [High Tech Campus which we have a great office](#);
- Possibly to work **fully remote**.

Further, we're always curious to needs you might have. We would love to know and discuss them.

## Are you the Flutter Developer we are looking for?

Are you interested? Then send your CV and a motivation to our CTO, Thijmen Verkerk ([thijmen@citylegends.nl](mailto:thijmen@citylegends.nl)) and Jimmy Hermans, CEO of CityLegends: [Jimmy@citylegends.nl](mailto:Jimmy@citylegends.nl);
